{ Education }

B.Eng. in Information and Communication Technologies

Universidad Tecnológica de Nayarit
2015 – 2019

Completed courses on Platzi

{ Languages }

Spanish	native
English	B1
French	A1

{ Creative archive }

- Logos and visual identity
- AI visuals and portraits
- Original music with SUNO
- Websites with GPT Sites

{ Profile }

Information Technology engineer with 7+ years in technical support and systems administration for the State Government of Nayarit. Alongside, I design and build websites, CRMs, visual identities and AI-powered automations for local businesses. I'm looking for a role that brings together systems, development and design.

I think like a strategist, design like a *human* and build like a technologist.

{ Experience }

Systems & Support Technician

Apr 2019 – present

Revenue Collection Office, Ministry of Administration and Finance, State Government of Nayarit, Tepic, Nayarit

- // Administer the office's Integrated Revenue Collection System: daily operation, configuration and incident resolution.
- // Administer and maintain the servers that keep the revenue collection service running.
- // Provide assistance and support to taxpayers with their procedures and inquiries.

Freelance designer & developer

Freelance

Projects for local businesses, Nayarit

- // Compostela Truck Repair (diesel mechanics): designed and built its website and a CRM for the shop.
- // MayLiss (dress rental): logos, art direction and an editorial landing built with Next.js.
- // Radiadores Fernando and other businesses: logos and visual identity.
- // Original AI-generated images and music for brands and personal projects.

Designed with intention.
Built to move forward.

{ Selected projects }

MayLiss

Editorial landing, 2026

A fashion-magazine landing for a dress rental in Tepic. Mobile-first, accessible, with its own motion system.

Next.js, Tailwind, Motion, Lenis

dimapesa-developer.github.io/mayliss-landing

Compostela Truck Repair

Website & CRM

A custom website and CRM for a diesel repair shop: online presence and customer management in one place.

DIMAPESA v2

Personal portfolio, 2026

Brand, design and code for this portfolio: a generative particle intro in Canvas, light and dark themes, bilingual, published as a static site.

Next.js, TypeScript, Canvas 2D, Motion

dimapesa-developer.github.io/dimapesa-portafolio

DIMAPESA v1

Personal site, 2026

First version of the personal brand, built with GPT Sites: where the braces, the lime and the violet were born.

GPT Sites

dimapesa-portafolio.dimapesa-proyectos.chatgpt.site

{ Capabilities }

Strategy

I find the focus, organize complexity, and turn an idea into an actionable direction.

Digital product

I design clear, useful, and coherent experiences, from the first flow to the last detail.

Technology

I build functional solutions and automations that are ready to grow with you.

Designed with intention.
Built to move forward.
