{ Profile }

Creative technologist in Mexico. I design and build digital products that make complexity clear, useful, and human: from strategy and the first flow to code in production.

I think like a strategist, design like a *human* and build like a technologist.

{ Capabilities }

Strategy

I find the focus, organize complexity, and turn an idea into an actionable direction.

Digital product

I design clear, useful, and coherent experiences, from the first flow to the last detail.

Technology

I build functional solutions and automations that are ready to grow with you.

{ Projects }

MayLiss

Editorial landing, 2026

Art direction, design and development of a fashion-magazine landing for a dress rental in Tepic. Mobile-first, accessible, with its own motion system.

Next.js, Tailwind, Motion, Lenis — dimapesa-developer.github.io/mayliss-landing

DIMAPESA v2

Personal portfolio, 2026

Brand, design and code for this portfolio: a generative particle intro in Canvas, light and dark themes, bilingual, published as a static site.

Next.js, TypeScript, Canvas 2D, Motion — dimapesa-developer.github.io/dimapesa-portafolio

DIMAPESA v1

Personal site, 2026

First version of the personal brand, built with GPT Sites: where the braces, the lime and the violet were born.

GPT Sites — dimapesa-portafolio.dimapesa-proyectos.chatgpt.site

Designed with intention.
Built to move forward.

{DIMAPESA}
